TEAMreaction

Duration: approx. 2-4 hours
Participants: from 30 people

The seminar room becomes a giant team spirit machine! Each small team has a dedicated area with a theme and some pre-assigned materials. The goal is to create one section of a long and creative chain reaction, ending in a spectacular finale.

During the material distribution, teams can "purchase" additional fun items. Just as in real teamwork, agreements and handovers must succeed – and here, too, the sections must be carefully connected: it's all about overcoming isolated thinking and keeping the big picture in mind to complete the chain reaction successfully.
